

KYOCERA  
SIMS CONNECTOR

# KYOCERA SIMS CONNECTOR

SCAN YOUR HARD COPY DOCUMENTS  
STRAIGHT INTO SIMS.NET AT THE TOUCH OF A BUTTON

## WHAT IS SIMS?

SIMS (School Information Management System) is a management information system:

- > used by more than 21,000 schools in the United Kingdom
- > in 150 local authorities across the United Kingdom
- > boasting around 80% of the market share.

## SUMMARY OF SIMS FUNCTIONS

SIMS helps schools manage:

- > student registration and reporting
- > student performance
- > personalised learning
- > exam organisation
- > timetable construction
- > cover management.

## THE SIMS.NET CONNECTOR FOR AUTOSTORE WORKFLOW

With the SIMS.net connector for Autostore workflow you can now scan your hard copy student records direct into the SIMS database leading to easy retrieval and centralised storage, whilst providing enhanced document workflow.

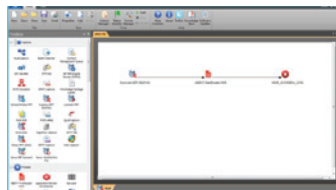

nsi™ autostore®

**1 MANAGEMENT CONSOLE**

A simple rules and routing management console makes creating scanning workflows simple.

**2 EMBEDDED SIMS CONNECTOR**

The Autostore user interface is embedded into the regular MFP operation panel.

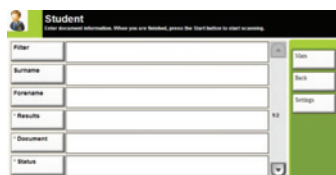

**3 DEFINING THE DESTINATION**

Select the target recipient group (eg Student or staff), whether the document is public, private or confidential and the document type.

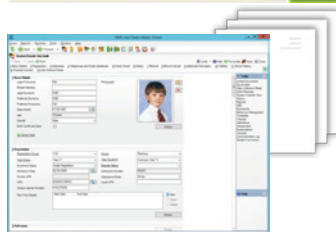

**4 SEARCHING FOR THE RECIPIENT**

Students or staff can then be searched. Once selected the relevant SIMS data will be auto filled.

**5 LINKED DOCUMENTS**

The scanned document will then be sent directly into SIMS and stored within the student record.

KYOCERA has worked with UK schools, colleges and universities for over twenty years reducing waste, increasing efficiency and improving productivity. We work with our partners to deliver best practice and most importantly best pricing for our education customers. Our industry-leading portfolio of robust and reliable products and best-of-breed solutions means that we can deliver schools, colleges and universities best value document solutions which work and help lower their carbon footprint.

**BENEFITS OF AUTOSTORE SIMS.NET CONNECTOR**

- > Simple, fast and secure storage of documents and information.
