Highly productive and economical, the ECOSYS P6035cdn combines speed and excellent colour quality with intelligent network and security features – meeting the demands of busy offices and work groups of all sizes. And thanks to cost-effective ECOSYS technology with its long-life components, this device offers great potential for cost savings.

ECOSYS stands for ECOlogy, ECONomy and SYStem-printing. With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that toner is the only consumable for the first 200,000 pages. The modular design concept allows you to add workflow enhancing functions as required and the integrated system software provides long-term cross network compatibility. All contributing to the fact that KYOCERA's long-life components cost you and the environment less.

Environmental print features

Duplex print mode (Double sided printing), N-Up printing mode (N pages on 1 sheet), Toner save mode (Draft print mode), Quiet mode (reduced print speed).

KYOCERA NetViewer

KYOCERA NetViewer enables complete monitoring and control of all ECOSYS printers and digital KYOCERA multifunction units from any Windows® PC and thus provides ideal network administration. It also supports the standardised SNMP protocol.
